

Statewide Contract Resources for Emergencies

The Operational Services Division's (OSD) [Statewide Contracts](#) are in place to ensure public entities have access to products and services needed throughout the year, as well as during times of emergency. Several hundred Statewide Contract vendors are designated as emergency suppliers based on their ability to expedite orders and make special accommodations, such as filling products and services needs 24/7 or enabling buyers to pick up needed items outside of regular business hours.

Agencies, municipalities, schools, and other eligible buyers may quickly identify and connect with our emergency suppliers using the [Emergency Response Supplies, Services, and Equipment Contact Information](#). This resource lists the vendor name, associated Statewide Contract, a contact person, along with phone number and email. OSD recommends keeping a hard copy of this resource on hand should an emergency arise.

Emergency Preparedness Contracts

Here are some products and services that may come in useful should an emergency strike in your area:

- » Bottled water ([GRO39](#))
- » Cots ([HLS06](#))
